

safetrack[®] LM contour

COLD PLASTIC LINE MARKING SYSTEM

Safetrack[®] LM Contour is a cold applied reactive curing vibro-line marking system designed to provide a long term solution to lane edge safety.

Safetrack[®] LM Contour is produced by broadcasting specially selected glass beads into our high performance MMA resin. The use of these specially selected beads combined with optimum bead retention provides an edge line of exceptional contrast at night. The flat top raised contour produce a lower-pitched noise which increases driver awareness once driven on.

COLOURS

Safetrack[®] LM Contour is available in 2 standard colours, white and yellow.

INCREASING ROAD SAFETY

The use of **Safetrack[®] LM Contour** provides greater safety by enhancing long-term in-service performance and eliminating hot trades during application.

TYPICAL APPLICATIONS

- EDGE LINES
- YELLOW LINES

ENHANCED DRY NIGHT & WET NIGHT RETROREFLECTIVITY

STRONG SENSORY & AUDITORY WARNING

GREATER WEAR RESISTANCE

GREATER THERMAL STABILITY

HIGH SKID RESISTANCE

SUPERB ADHESION
